# SECURITY LIGHTS

## EZVIZ LC1 HD SMART WIFI SECURITY LIGHT AND CCTV CAMERA INCLUDING INSTALLATION

EZVIZ LC1 Smart Security HD Camera Light

The EZVIZ LC1 is a smart home security light with a built-in HD camera and an audio alert system. The LC1 can be connected to your home WiFi which enables it to send you notifications when movement is detected as well as live and recorded footage of your property.

### Powerful LED Security Light

The LC1 has a powerful 2500 Lumen LED floodlight with positionable heads and a built-in PIR motion sensor that provides an excellent security deterrent as well as useful illumination around your home.

The LED floodlight also means that high definition images from the built-in HD camera can be viewed in full colour day or night which provides the best possible chance of identifying intruders.

### Active Defence System with Audio Alert

The EZVIZ LC1 features a built-in PIR for 270° of motion detection.

When the LC1 detects motion in the detection area it can flash a warning light and sound an audible warning to serve as an excellent visual and audio deterrent to potential intruders.

When connected to WiFi the EZVIZ LC1 can also send an instant alert notification to you through the EZVIZ app on your mobile device.

### Record Video and Audio and Access From Anywhere

The EZVIZ LC1 has a built-in wide angle 1080p HD CCTV camera along with a MicroSD™ card slot which can be used to store audio and video directly to the camera. When connected to the WiFi the LC1 can also store encrypted video and audio to the cloud using the EZVIZ cloud service (subscription required).

The EZVIZ mobile app provides an easy way to get notifications and access live and recorded video and audio from any compatible smart device.
